# BENTONIT MIXING PLANTS

## BENTOMIX®

BENTOMIX® Mixing plants are universal for almost all drilling devices.

The compact design of the mixing system can be comfortably loaded with a forklift or with an excavator by chain suspension.

The system is designed, so that it fits easily on all standard truck bodies.

The feeding of the bentonite is via a hopper with integrated venturi nozzle.

The filling of the tank with fresh water is carried, as well as the removal of the ready-mixed suspension, via a C-port.

## TECNICAL DATA

Type	BENTOMIX® 3000	BENTOMIX® 5000
Tankvolume (litre)	3.000	5.000
Drive	Diesel-Motor	Diesel-Motor
Power (kW)	24,3	24,3
Max. Bentonit-Delivery (l/min)	750	750
Max. Fluid-Pressure (bar)	3,4	3,4
Dimensions (LxWxH) in mm	1.800x2.400x2.300	2.200x2.400x2.300

*We reserve the right to modify technical specifications according to technical improvement and advances.*
